Dear Acting Commissioner Morgan and Acting Director Albence:

We are writing to you today regarding recent reports that U.S. Customs and Border Protection (CBP) and U.S. Immigration and Customs Enforcement (ICE) are deploying resources in connection with demonstrations nationwide. As both CBP and ICE have acknowledged, the right to peaceful protest is a bedrock principle of our democracy. We write to you today to request information regarding ICE and CBP operations in connection with demonstrations, particularly in light of public reports that law enforcement have used force—including tear gas, spray chemical irritants, non-lethal bullets, and other forms of force.

It is critical to understand how ICE and CBP are using their resources, particularly during the ongoing public health crisis that has sickened over 1.8 million people in the United States and claimed over 100,000 American lives. On May 31, CBP informed Congress that CBP “is currently deploying officers, agents and aviation assets across the country at the request of our federal, state and local partners.”1 The notification referenced routine CBP operations “to augment law enforcement and humanitarian relief efforts.” On June 1, ICE issued a statement indicating that “ICE personnel and Special Response Teams have been deployed . . . ” for similar purposes.2 Your agencies’ public statements and responses to congressional staff to date have provided extremely limited details regarding the nature and purpose of these deployments.

It is also vital to ensure that ICE and CBP are acting responsibly, reasonably, and within their respective authorities. CBP has stated that “CBP’s deployment of manpower and aerial assets is about supporting the efforts of our federal, state and local partners, not about carrying out CBP’s immigration enforcement mission.”3 An ICE spokesperson similarly stated that “[t]here’s not going to be any immigration enforcement element whatsoever.”4 We need answers regarding what, precisely, your agencies will be doing and what policies and procedures are in place to protect the rights of individuals with whom you come into contact.

We therefore ask that you respond to the following questions by June 12, 2020:

1. How do your agencies track requests for assistance or resources, including both requests for personnel and equipment?
   a. What is the approval process for such requests?
