

116TH CONGRESS
2D SESSION

S. _____

To expand vote by mail and early voting, and to improve the safety, accessibility, and efficiency of in-person voting during elections for Federal office.

IN THE SENATE OF THE UNITED STATES

Ms. HARRIS introduced the following bill; which was read twice and referred to the Committee on _____

A BILL

To expand vote by mail and early voting, and to improve the safety, accessibility, and efficiency of in-person voting during elections for Federal office.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “VoteSafe Act of 2020”.

5 **SEC. 2. FINDINGS.**

6 Congress finds the following:

7 (1) The right to vote is the foundation of Amer-
8 ican democracy. Voting provides the citizenry with a
9 vital check on their elected officials and grants peo-

1 ple the political power necessary to exercise and de-
2 fend the rights guaranteed by the United States
3 Constitution.

4 (2) The Elections Clause of the United States
5 Constitution gives Congress sweeping power to regu-
6 late the time, place, and manner of Federal elections
7 (Article I, section 4 of the Constitution of the
8 United States; see also *Arizona v. Inter Tribal*
9 *Council of Arizona, Inc.*, 570 U.S. 1 (2013)). Con-
10 gress also has enforcement power under the Four-
11 teenth and Fifteenth Amendments of the Constitu-
12 tion of the United States.

13 (3) As Dr. Martin Luther King Jr. explained in
14 a speech delivered on May 17, 1957, “So long as I
15 do not firmly and irrevocably possess the right to
16 vote I do not possess myself. I cannot make up my
17 mind—it is made up for me. I cannot live as a
18 democratic citizen, observing the laws I have helped
19 to enact—I can only submit to the edict of others.”.

20 (4) The right to vote was not guaranteed to all
21 Americans at our Nation’s founding. The ratification
22 of the Fifteenth and Nineteenth Amendments, the
23 civil rights movement’s struggle for justice and
24 equality, and the enactment of the Voting Rights

1 Act of 1965 and its subsequent amendments suc-
2 ceeded in expanding access to the franchise.

3 (5) Unfortunately, the barriers faced by voters
4 who have historically experienced the greatest obsta-
5 cles to voting are exacerbated by the coronavirus
6 (COVID-19) pandemic.

7 (6) Strategies to mitigate the spread of
8 COVID-19 include “social distancing”, a practice
9 that requires individuals to maintain a distance be-
10 tween themselves and other people in order to avoid
11 acquiring or transmitting the virus. The need to em-
12 brace such precautions will require States to quickly
13 modify voting processes to minimize person-to-per-
14 son contact.

15 (7) Voting by mail is a critical part of the solu-
16 tion and must be expanded as quickly as possible,
17 not simply as a means of ensuring access during
18 public health emergencies, but also as a means of ex-
19 panding access to the franchise to those whose work,
20 health, or ability to access the ballot may be limited.

21 (8) However, safe and secure in-person voting
22 remains vitally important for large groups of voters,
23 including voters with disabilities, language minority
24 voters, American Indian and Alaska Native voters,
25 and African American voters.

1 (9) The Americans with Disabilities Act of
2 1990 (42 U.S.C. 12101 et seq.) and the Rehabilita-
3 tion Act of 1973 (29 U.S.C. 701 et seq.) require
4 that individuals with disabilities have equal access to
5 every aspect of the voting process. Vote-by-mail
6 poses various accessibility challenges for voters with
7 disabilities, including blind, low-vision, or other
8 print-disabled voters who may require in-person vot-
9 ing or assistive technology in order to privately and
10 independently mark their ballots. Remedies for vot-
11 ers with disabilities require an investment of re-
12 sources to ensure State and local election websites,
13 online voter registration portals, and vote-by-mail
14 systems are accessible; that in-person voting loca-
15 tions permit a safe, dignified, and accessible voting
16 experience; and that the right of voters with disabil-
17 ities to a secret ballot is not sacrificed due to the
18 pandemic.

19 (10) Language minority voters face unique bar-
20 riers to voting that require additional resources and
21 support to ensure full and equal access, including
22 additional resources to ensure local compliance with
23 the language minority voting protections in section
24 203 of the Voting Rights Act of 1965 (52 U.S.C.
25 10503) and greater language assistance services, in-

1 including additional bilingual or multilingual poll
2 workers and election workers.

3 (11) American Indian and Alaska Native voters
4 face unique obstacles in a vote-by-mail system. Trib-
5 al communities in rural areas often do not have tra-
6 ditional residential mailing addresses and have lim-
7 ited access to transportation. Tribal members have
8 distant rural post offices, slow mail routes, limited
9 numbers of post office operation, and too few post
10 office boxes. As a result, rural Tribal communities
11 require distinct voting accommodations to ensure
12 participation in a vote-by-mail system.

13 (12) Finally, in-person voting holds great sig-
14 nificance for African American voters, for whom the
15 right to vote was hard won. African Americans have
16 been excluded from the franchise through State and
17 local laws, poll taxes, voting literacy tests, physical
18 violence, and lynchings. For many African American
19 voters today, casting a ballot at one's polling place
20 is a solemn ritual that honors those who sacrificed
21 their safety and their lives in order to secure the
22 right to vote. However, COVID-19 poses substantial
23 risks to the African American population and has in-
24 fected and killed African Americans in the United
25 States at disproportionately high rates, highlighting

1 longstanding inequalities in resources and access to
2 health care.

3 (13) Social distancing designed to curb the
4 COVID-19 pandemic will also greatly impact in-per-
5 son voter registration efforts, including voter reg-
6 istration drives and voter registration services re-
7 quired by the National Voter Registration Act. Many
8 government offices, like State departments of motor
9 vehicles, are currently closed to in-person traffic and
10 are likely to remain closed for an indefinite period
11 of time in 2020.

12 (14) Therefore, it is appropriate for Congress
13 to expand no-excuse absentee vote-by-mail while also
14 ensuring the safety and accessibility of in-person
15 voting and voter registration during exigent cir-
16 cumstances, including the current pandemic.

17 **SEC. 3. REQUIREMENTS FOR NO-EXCUSE ABSENTEE VOT-**
18 **ING, EARLY IN-PERSON VOTING, AND PLAN**

18 every registered voter who requests such a bal-

20 register voters, to every individual who is eligi-
21 ble to vote and requests such a ballot);

22 (B) allows voters to request a mail-in bal-
23 lot online;

24 (C) if the State requires a signature for
25 absentee ballots, allows voters to sign the ballot

1 by providing a mark or signature stamp or by
2 providing a signature with the use of an assist-
3 ant because of age, disability, or other need;

4 (D) accepts and counts ballots received be-
5 fore the state's certification deadline if the bal-
6 lot—

7 (i) is postmarked by the date of the
8 election; or

14 days before the date of the election and ending
15 with the time that polls close on the date of the

13 (ii) allows the voter to receive assist-
14 ance from a person of their choosing to
15 complete and submit a mail-in ballot; and

17 minority voters, including multilingual versions
18 of vote-by-mail materials and language assist-

22 lating to any defect described in paragraph
23 (1)(G)(ii)(II) are the following:

24 (A) Except as provided in subparagraph

25 (B), the voter shall be allowed to cure the de-

1 fect through the same form of communication
2 with respect to which the notice of such defect
3 is provided.

4 (B) In any case in which a required signa-

9 the ballot shall be made by a group of 2 or
10 more election officials.

11 (D) The voter shall have the opportunity
12 to appeal any rejection of the ballot based on
13 the defect.

21 work day.

22 (e) PLAN TO IMPLEMENT CDC GUIDANCE.—

23 (1) IN GENERAL.—The requirement described
24 in this subsection with respect to in person voting is
25 met if the State establishes a plan to ensure that
